COMPLAINANT

v.

SETTLEMENT AGREEMENT

MICHAEL E. CARVER

RESPONDENT

Comes the parties, Complainant, the Kentucky Office of Mine Safety and Licensing (OMSL), by counsel, and the Respondent, Michael E. Carver (Carver), *pro se* and hereby state that they have agreed to a settlement of the above-styled disciplinary proceeding, according to the following terms:

In consideration for the final resolution of this action against him, and the cancellation of the hearing (as it pertains to him) that is currently scheduled for March 10, 2011, the Respondent hereby admits that he violated his employer's substance abuse policy, which was reported to the Complainant and resulted in the suspension of his assistant mine foreman, gas detection, MET, temporary surface miner, underground mine foreman and underground miner certificates on August 30, 2010. His actions constituted a violation of KRS 351.120. Therefore, Carver hereby agrees to the following:

1. The suspension of his gas detection, temporary surface miner and underground miner certificates until such time as his application for restoration of his certificate is accepted by the Kentucky Mining Board (Board), in accordance with KRS 351.120(13), but in no event shall the suspension end sooner than thirty (30) days after the next scheduled meeting of the Kentucky Mining Board.

2. The Respondent's gas detection, temporary surface miner and underground miner certificates shall be suspended for a period of thirty (30) days after reinstatement. Thereafter, said certification shall be placed in probation for a period of one (1) year, subject to the conditions set forth in Paragraphs 3, 4, 6, 7 and 8, below.

3. The Respondent's assistant mine foreman, MET and underground mine foreman certificates shall remain suspended for the duration of the probationary period.

4. During this one-year probationary period, Carver shall comply with all state and federal mine safety laws and regulations, including the terms of this Settlement Agreement. The willful violation by Carver of any of said laws or regulations, or the terms of this settlement agreement, may result in OMSL filing a motion with the Mine Safety Review Commission to revoke his certificates for the remainder of the probationary period.

5. Carver shall submit to drug testing twice per month every month during the first four (4) months of the suspension/probationary period set forth in Paragraph 2, above, and once every thirty (30) days during the remainder of the period. The twice-monthly tests shall be taken on or before the 15th day of each month and on or before the last day of each month and the reports of results made as soon as possible. In all instances, it is the Respondent's responsibility to have the results of all tests reported to OMSL, at his own expense, through his employer's program or a treatment program. If necessary, the Respondent can utilize the drug testing program offered by OMSL through its examination system, at his own expense.

6. Carver understands and agrees that he shall undergo an evaluation by a certified addiction counselor or other professional familiar with addictive behaviors, to determine if attendance in rehabilitation, counseling or support group programs is warranted prior to the reinstatement of his certificate. The written determination of said professional shall be submitted

to OMSL. If the professional determination concludes that the Respondent should enroll in rehabilitation, counseling or support group programs, he shall do so prior to the reinstatement and shall continue his participation in same during the probationary period or until such time as his counselors certify to OMSL that he has completed the treatment and counseling.

7. Carver understands and agrees that the report of any positive drug or alcohol test results shall be cause for the revocation of his certificates. During the probationary period set out herein, if the Petitioner is reported by any employer for violating the employer's drug- and alcohol-free policy pursuant to KRS 351.170(2), the parties agree that the Petitioner's mining certifications will be immediately suspended until such time as a Motion for Sanctions can be filed by the OMSL and ruled upon by the MSRC.

8. Carver further understands and agrees that he shall not be eligible for certification in any other specialties during the probationary period.

9. Carver understands and agrees that in the event that he fails to provide the documents necessary for reinstatement before the Kentucky Mining Board within ninety (90) days of entry of the Final Order upholding the Settlement Agreement, his certificate will be automatically revoked for a period of not less than one (1) year without the necessity of further Motion or action by the OMSL.

Carver further agrees that this Settlement Agreement and any final order issued herein by the Mine Safety Review Commission will be considered by the Commission to constitute a "first offense", as that term is defined at 805 KAR 8:010, Section 1(13).

Carver understands and agrees that he had the opportunity to retain an attorney to represent him in this matter, but that he has chosen to represent himself. Carver further states that he has carefully read this Settlement Agreement (or that the Settlement Agreement has been

read to him), that he has carefully considered the Agreement prior to signing it, and that he understands and agrees to its terms and provisions.

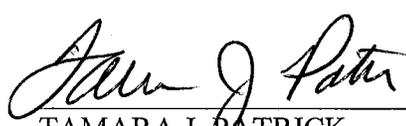

OMSL and Carver acknowledge and agree that there are no further promises, inducements, representations, or agreements in connection with this Settlement Agreement other than those expressly set forth in writing herein.
